

Title of study: Health-Related Quality of Life of Female Children with Congenital Adrenal Hyperplasia : A Mixed Methods Study

PI: Loretia Carroll, PhD (c), MSN, RN

Institution: University of Tennessee Health Science Center Memphis, TN

You are invited to participate in a research study that aims to learn more about the health of female children with CAH and how CAH affects the child's life from the perspective of the child and caregiver. You may participate if you are a female between the ages of 7-18 years old, understand and speak English, and are a parent or caregiver over the age of 18 who cares for a child with CAH. The child and caregiver will complete a survey and be invited to participate in an individual interview. Surveys and interviews may be completed over the phone or in person at private, easily accessed locations. Participants will receive a \$20 gift card for completing the survey and/or interview.
